

TURN OFF YOUR ENGINE AND SAVE!

***You Can Help Improve Air Quality and Use Energy
More Wisely by Turning off Your Engine While
Your Vehicle is Parked.***

**Save
Money**

Because idling your vehicle for 10 minutes a day uses up more than 100 litres of gasoline in a year.

**Improve
Air
Quality**

To combat problems like smog and climate change, we all need to use energy more wisely.

**Improve
Health**

You won't have to breath in unnecessary exhaust fumes that affect the health of vulnerable individuals such as children, seniors and people with respiratory problems.

IDLE-FREE

The City, in partnership with the Hamilton Industrial Environmental Association (HEIA), is launching an anti-idling campaign to raise awareness about the adverse effects of vehicle idling and to encourage a positive change in driving habits. For more information visit www.airquality.hamilton.on.ca or call 905-546-2424 ext1250.
